GAP / Togo

●At last! Praise the Lord, Good, sufficient, and potable water was found at Kati-Lomnava after the drilling. The blue pipes have been installed into the well. The pump and pressurized pipes soon to be installed. Th water tower will be built, then the work continues. The most important is, water was found!

●Friends and donors are asking about the remaining fund to complete the work, and we are waiting for the promises to be fulfilled this month. We appreciate your prayers and concerns for us, thank you very much.
